### A&P

- Description of A&P session to send in this week:  
Students left behind. Whom does the Chancellor's office serve?
- Blurb: The CCCO mission and vision statement is simply "putting students first." Really? Recent policy changes promoted by outside interests have forced many students out of our system while the CCCO's relationship with these outside entities has fundamentally changed the mission of the California Community Colleges. As a result, policies purported to increase opportunity and equity have the opposite effect and leave many members of our communities behind. Please join us for a robust discussion of how we might collectively empower the community to bring back the true focus of our system onto all students.
